XVI Biennial Animal Nutrition Conference
Innovative Approaches for Animal Feeding & Nutritional Research
February 6-8, 2016

Con-current Event
FeedTech
Animal Nutrition Society of India
&
ICAR-National Dairy Research Institute
Conference

The Organising Committee cordially invites you to participate in XVI Biennial Conference of Animal Nutrition Society of India (ANSI) on "Innovative Approaches for Animal Feeding and Nutritional Research" during February 4-8, 2016. The objective of this conference is to provide an interactive platform for researchers, academia, farmers, feed industry and other stakeholders to address emerging issues of animal nutrition and related industries. We eagerly look forward to meet and welcome you.

Exhibition

Organizing Committee also invites you for the concurrent event - Feed Technology Exhibition to be organized in association with BENISON Media. Feed Tech 2016 is a trade show offering cutting-edge innovation and educational opportunities for animal nutrition industry, along with crucial networking for beneficial business relationships. The exhibition will bring suppliers presenting complete value chain of feed industry from ingredients and additives to finished products.

ICAR-National Dairy Research Institute

The ICAR-National Dairy Research Institute (ICAR-NDRI) as country’s premier Dairy Research Institution has developed considerable expertise over the last nine decades in different areas of Dairy Production including Animal Nutrition, Processing, Management and Human Resource Development. The Institute is continuously working to develop its R&D and HRD programmes to serve the nation in terms of food security, employment generation, poverty alleviation and economic prosperity.

Scientific programme

The scientific programme will consist of invited lectures, posters and oral presentations covering following major themes:

- Novel feed resources
- Eco-resilient feeding strategies
- Efficient nutrient utilization
- Minerals, vitamins and feed additives
- Nutrition, health and reproduction
- Nutritional genomics
- Livestock & livelihood security
- Small animal farming and poverty alleviation
- Poultry production & health
- Farmer, Scientist and Industry meet

Abstract submission guidelines

Extended abstract should contain title, author and affiliation, mini abstract, key words, background, materials & methods, results (maximum 4 references) in maximum 700 words. The name of the presenting/ corresponding author should be underlined and whole abstract should be typed in times new roman, font size 12 as MS word and be sent to editoransicon2016@gmail.com. The last date for submission of abstract is Nov. 30, 2015.
