Training Programme On Chemical Analysis of Milk and Milk Products 27 July – 01 August, 2026

**Venue: National Referral
Centre for Milk Quality and
Safety, ABTD building, ICAR-
NDRI, Karnal-132001**

About the Training

ICAR-National Dairy Research Institute, Karnal, is organizing a specialized **6-day training program on “Chemical Analysis of Milk and Dairy Products”** for professionals, researchers, students, and industry personnel. The training aims to provide in-depth theoretical and practical knowledge of standard methods for evaluating milk and milk products.

Participants will gain hands-on experience in the analysis of key chemical parameters, including fat, protein, lactose, total solids, solids-not-fat (SNF), acidity, ash, moisture, and other compositional attributes of milk and dairy products such as cream, butter, khoa, paneer, condensed milk, and dried milk.

Practical training will cover laboratory procedures, instrumental analysis, data interpretation, and quality assurance practices, with emphasis on regulatory compliance and ensuring the safety and authenticity of dairy products.

National Referral Centre for Milk Quality and Safety

National Referral Centre for Milk Quality and Safety (NRCMQS) is state of the art facility at ICAR-National Dairy Research Institute, Karnal. **NRCMQS is accredited by the National Accreditation Board for Testing and Calibration Laboratories (NABL) as per ISO/IEC 17025:2017 standards and is also recognized by FSSAI with National Reference Laboratory (NRL) status.**

NRCMQS is equipped with necessary instruments and techniques for qualitative and quantitative analysis of milk and milk products in both chemical and microbiological testing. The Centre focuses on providing high-quality commercial testing of milk and milk products, supporting the dairy industry in ensuring product authenticity, safety, and compliance with regulatory standards. Additionally, NRCMQS conducts specialized training programs for students, researchers, and industry personnel, enhancing their practical skills in milk quality and safety assessment.
